

WASTE REIMAGINED. PERFORMANCE REDEFINED.

CIRCULARIS 245

Developed using chemically recycled polyester sourced from textile waste, Circularis 245 represents a new approach to sustainable workwear fabrics.

Combining a durable 2/1 twill construction with long-lasting performance, it has been engineered for demanding industrial environments while helping support a more circular textile industry.

CHEMICALLY RECYCLED

Made using chemically recycled polyester sourced from textile waste.

TEXTILE WASTE

Turning end-of-life textiles into high performance workwear fabrics.

BETTER COTTON

Support for more sustainable cotton farming practices.

INDUSTRIAL LAUNDERING

Engineered to withstand industrial laundering.

2/1 TWILL WEAVE

Durable twill construction for everyday durability and comfort.
